TWEETS: *protect little lungs*

What makes baby lungs so incredible, and how can we help keep the air safe for our children?

Find out with the new Little Lungs resource from @CleanAirMoms 

<http://ow.ly/Fabs30iyFST>

[>> TWEET THIS <<](#)

Every new mother listens for that first breath. From the first cry, baby lungs take in air at the rate of more than 40,000 times each day.

Babies need clean air to grow healthy lungs. Find out what you can do in your home and your community to clean up the air. <http://ow.ly/Fabs30iyFST> via @CleanAirMoms #BABYPOWER 

[>> TWEET THIS <<](#)

Our government and our industries know how to clean up air pollution—we've done it before.

But parents have to demand protection.

Sometimes being a good mom means being an engaged citizen.

Protect every breath.
